1. Introduction

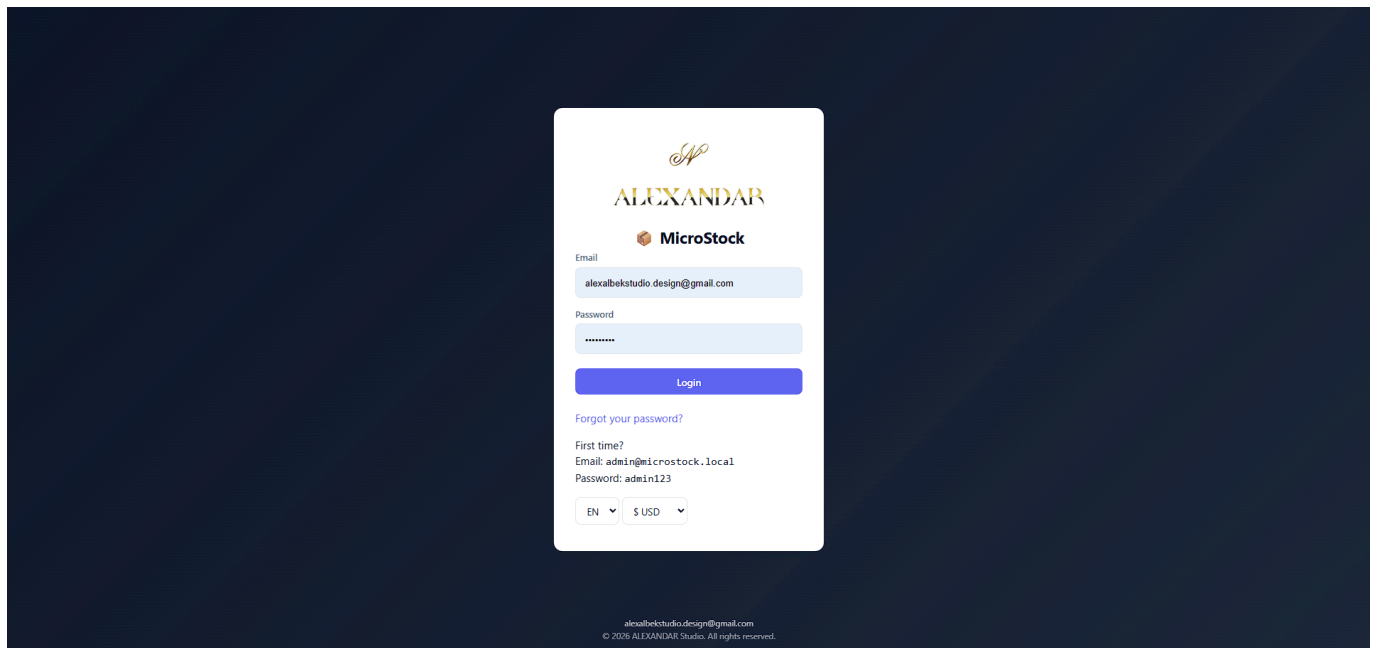

MicroStock is a **lightweight web tool** for managing a small online business. It's designed for:

- **Small online sellers** (Instagram, WhatsApp, Etsy, Shopify, Faire)
- **Small agencies and consultants** who track projects and costs

Key advantages:

- Everything in one place (stock, orders, projects, finances)
 - Runs in the browser — no installation
 - PWA — installs as an app on phone
 - Multi-currency and bilingual
-

2. First Login

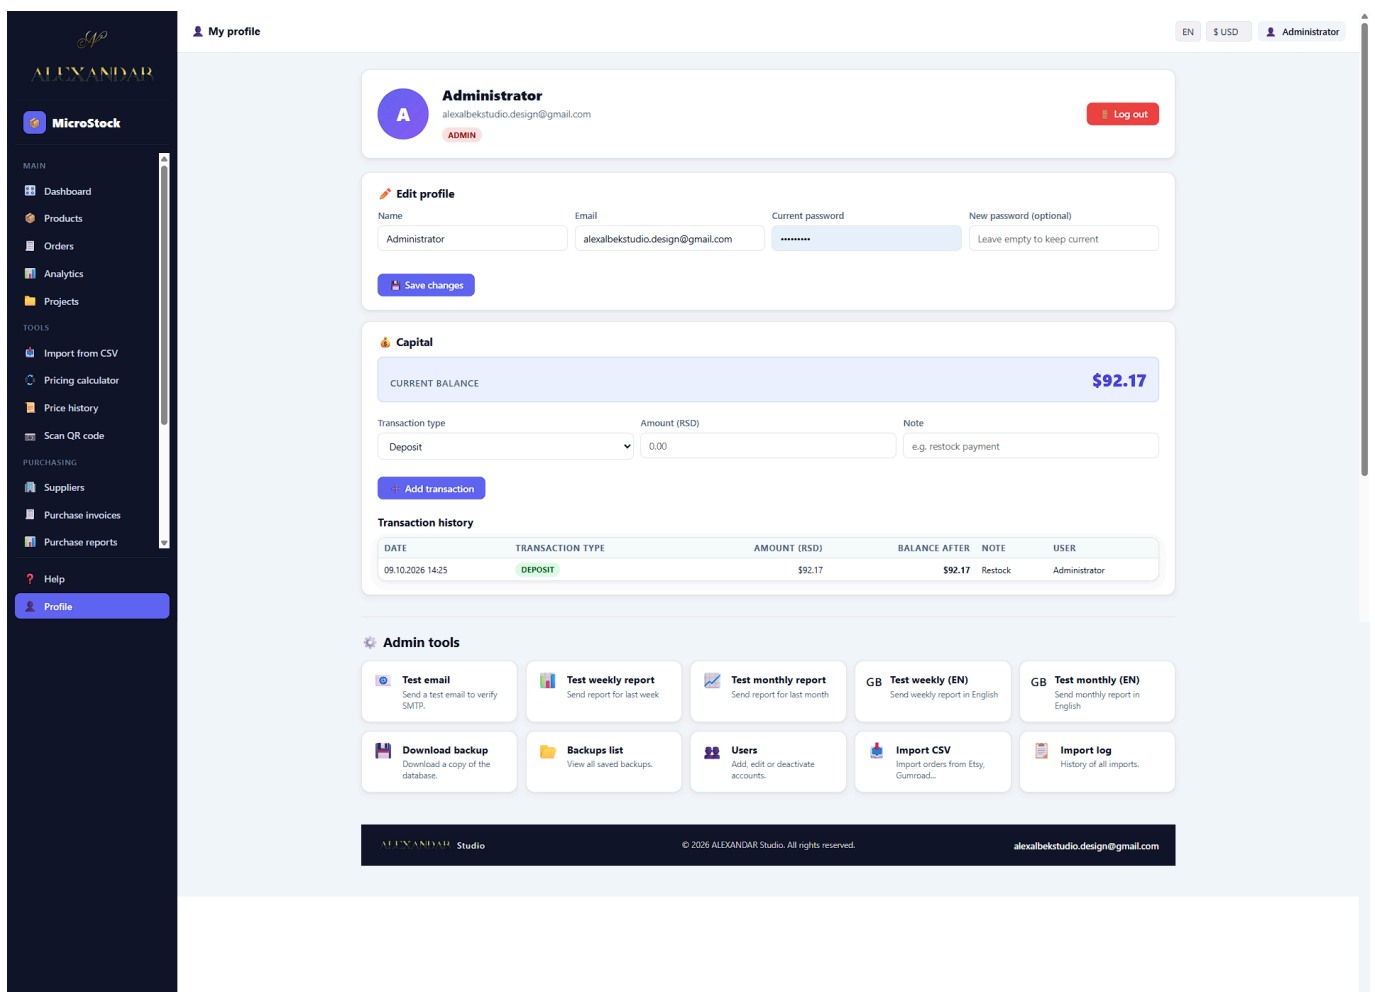

The login page features the ALEXANDAR logo at the top, followed by the MicroStock logo. Below this are input fields for Email (alexalbekstudio.design@gmail.com) and Password (masked with dots). A blue Login button is positioned below the password field. A link for 'Forgot your password?' is provided. For first-time users, a section titled 'First time?' lists the default Email (admin@microstock.local) and Password (admin123). At the bottom, there are dropdown menus for language (EN) and currency (\$ USD).

alexalbekstudio.design@gmail.com
© 2026 ALEXANDAR Studio. All rights reserved.

1. Open the **link** you received with your account (e.g. <https://microstock.onrender.com>)
2. Enter **email** and **password**
3. Click **Login**

First time? Contact the administrator to create your account.

Change Password

The user profile page for the Administrator shows the following sections:

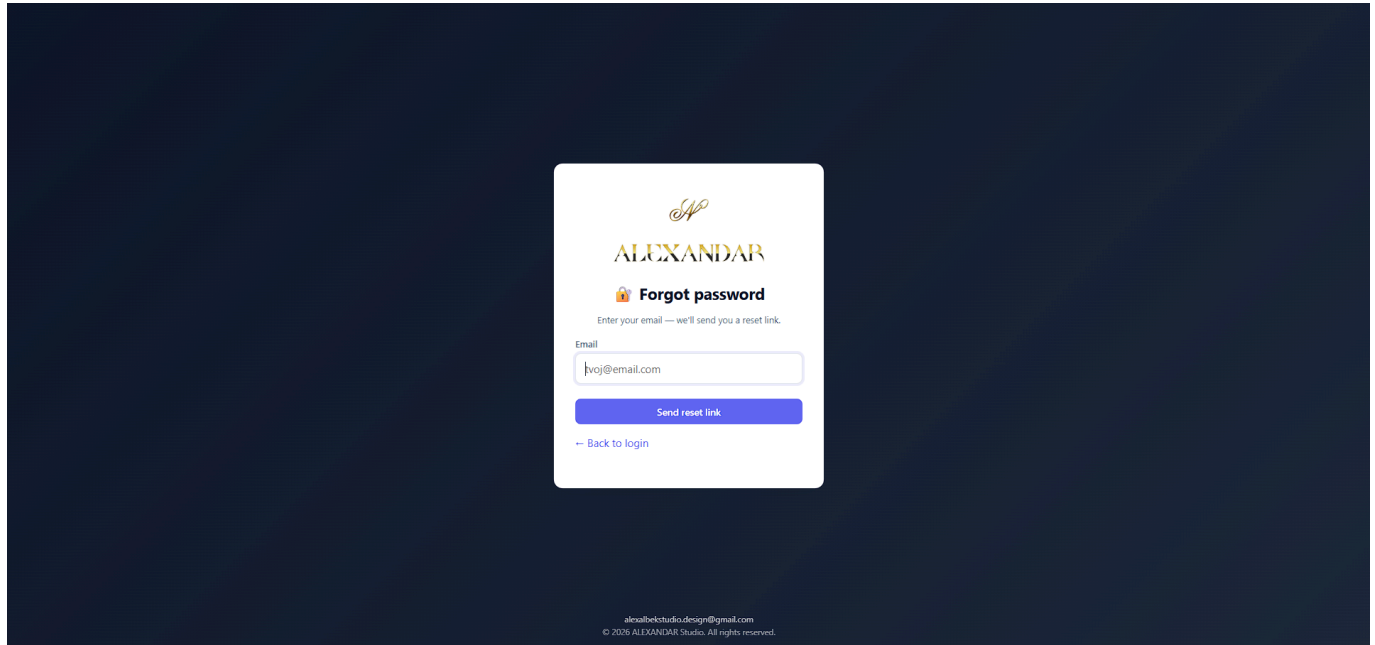

- My profile:** Displays the user's name (Administrator), email (alexalbekstudio.design@gmail.com), and a red Log out button.
- Edit profile:** Includes fields for Name (Administrator), Email (alexalbekstudio.design@gmail.com), Current password (masked), and New password (optional). A Save changes button is at the bottom.
- Capital:** Shows the current balance as \$92.17. Below this is a form for transactions with fields for Transaction type (Deposit), Amount (RSD) (0,00), and Note (e.g. restock payment). An Add transaction button is present.
- Transaction history:** A table showing the following data:

DATE	TRANSACTION TYPE	AMOUNT (RSD)	BALANCE AFTER	NOTE	USER
09.10.2026 14:25	DEPOSIT	\$92.17	\$92.17	Restock	Administrator
- Admin tools:** A grid of buttons for various administrative tasks:
 - Test email:** Send a test email to verify SMTP.
 - Test weekly report:** Send report for last week.
 - Test monthly report:** Send report for last month.
 - GB Test weekly (EN):** Send weekly report in English.
 - GB Test monthly (EN):** Send monthly report in English.
 - Download backup:** Download a copy of the database.
 - Backups list:** View all saved backups.
 - Users:** Add, edit or deactivate accounts.
 - Import CSV:** Import orders from Etsy, Gumroad...
 - Import log:** History of all imports.

alexalbekstudio.design@gmail.com

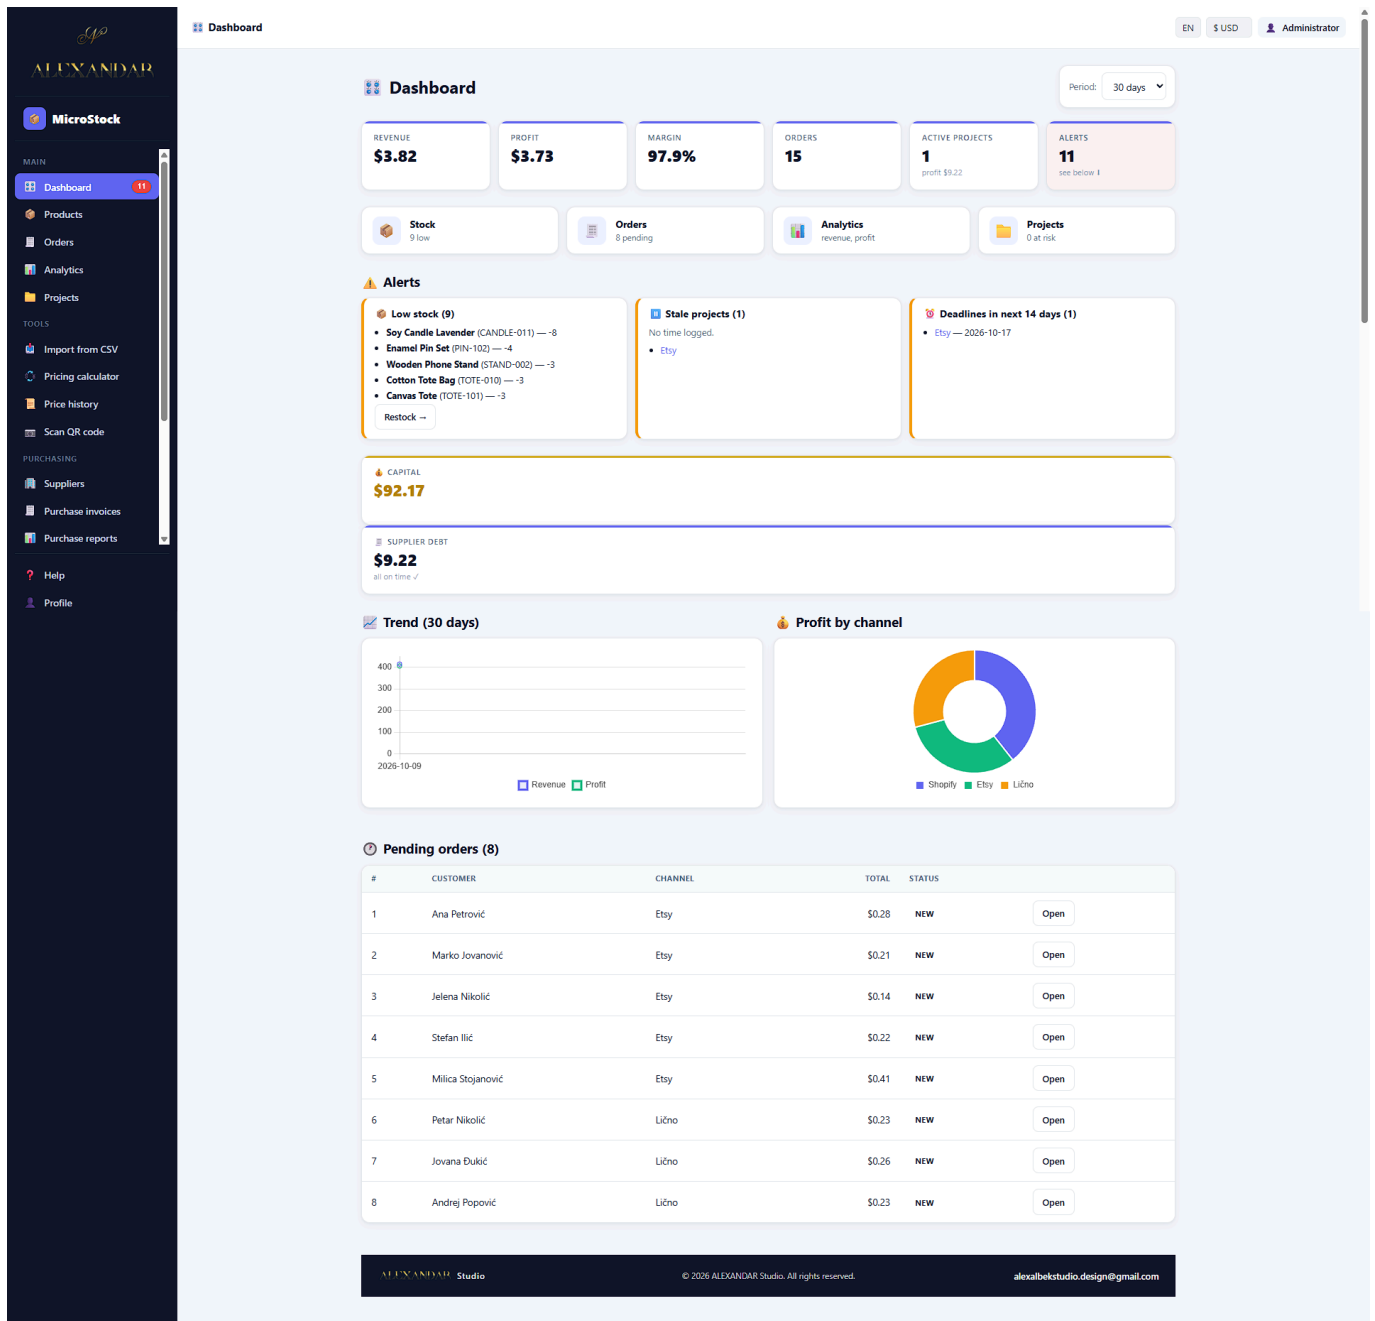

1. Click **Profile** in the sidebar
2. Enter current password
3. Enter new password (min 6 characters)
4. Click **Save changes**

Forgot Password

1. On the login page, click **Forgot your password?**
2. Enter your email
3. You'll receive a reset link (valid 1 hour)
4. Set new password

3. Dashboard

Dashboard is the central place where you see:

- **KPI cards** — Revenue, Profit, Margin, Orders, Active Projects, Alerts
- **Capital** — current balance
- **Supplier debt** — how much you owe
- **Quick actions** — shortcuts to Stock, Orders, Analytics, Projects
- **Alerts** — what to do today (low stock, deadlines, loss-makers)
- **Charts** — revenue/profit trend (30 days), profit by channel

Period filter — top right (7/30/90/365 days)

Capital is how much money you have available for business. You change it through:

- **Deposit** — when you put money into the company
- **Withdrawal** — when you take money out
- **Purchase** — when you buy goods (auto or manual)
- **Sale** — when you sell goods (auto or manual)
- **Adjustment** — manual correction

4. Products

Add Product

1. Click **Products** in the sidebar
2. Click **+ New product**
3. Fill in:
 - **SKU** — unique code (e.g. **MUG-001**)
 - **Name** — product name
 - **Price** — selling price (RSD)
 - **Cost** — purchase cost
 - **Stock** — current quantity
 - **Alert below** — when to warn you (e.g. 3)
4. Click **Save**

Projects are for agencies/consultants — track:

- **Client** — who you work for
- **Contract value** — how much you charged
- **Work hours** — how much the team spent
- **Expenses** — material, subcontractors, travel
- **Profit** — contract value – costs
- **Budget usage** — percentage of usage

Add Project

1. Click **Projects** in the sidebar
2. Click **+ New project**
3. Fill in basic data
4. **Save**

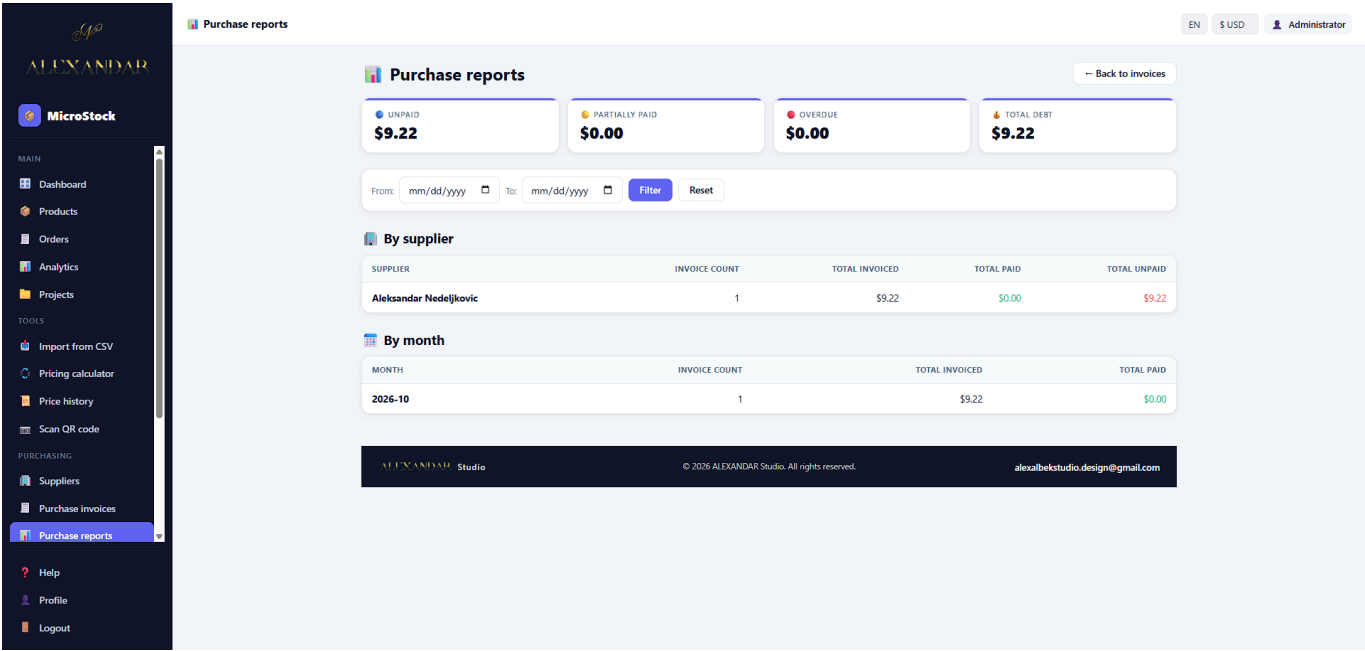

Work Hours and Expenses

In project details, add:

- **Hours** — which team member, how many hours, description
- **Expenses** — category (material, subcontractor, travel), amount, description

Alerts

When project exceeds **80% budget** → warning (yellow). When it exceeds **100% budget** → alarm (red).

Project PDF Report

Click  **PDF** → download report with hours, expenses, and KPI.

Click **Purchase reports** → see:

- Total debt to suppliers
- By supplier — how much you paid, how much you owe
- By month — how much you paid each month

9. Capital

Capital is money available for business.

Transactions

- **Deposit** — put money into company
- **Withdrawal** — take money out (salary, personal)
- **Purchase** — buy goods (reduces)
- **Sale** — sell goods (increases)
- **Adjustment** — manual correction

Automatic:

- When you mark purchase invoice as **paid** → capital is reduced
- When you cancel → capital is returned

10. Pricing Calculator

Pricing calculator

Calculate the selling price based on cost, margin and channel fee — or check how much you earn at the current price.

Basic data

Cost price (RSD) 1000 Shipping you pay (RSD) 0 Channel fee (%) 0 Tax / VAT (%) 0

Mode A — What should the price be?

Desired margin (%) 30

Margin = profit / selling price. E.g. 30% means you keep 30 RSD profit for every 100 RSD sold.

Recommended price \$1,428.57	
Profit	\$428.57
Real margin	\$30.00 %
Markup (on cost)	\$42.86 %
Cost price	\$1,000.00
Shipping	\$0.00
Channel fee	\$0.00
Tax	\$0.00

Mode B — How much do I earn at this price?

Selling price (RSD) 1500

Profit \$500.00	
Margin	\$33.33 %
Markup	\$50.00 %
Cost price	\$1,000.00
Shipping	\$0.00
Channel fee	\$0.00
Tax	\$0.00

Apply price to product

Select a product and click Apply — the Mode A price will be saved to the database and the calculation logged.

select product 1428.57

Channel presets

Click to fill the Channel fee field.

ALEXANDAR Studio © 2026 ALEXANDAR Studio. All rights reserved. alexalbestudio.design@gmail.com

Pricing calculator helps determine **selling price**.

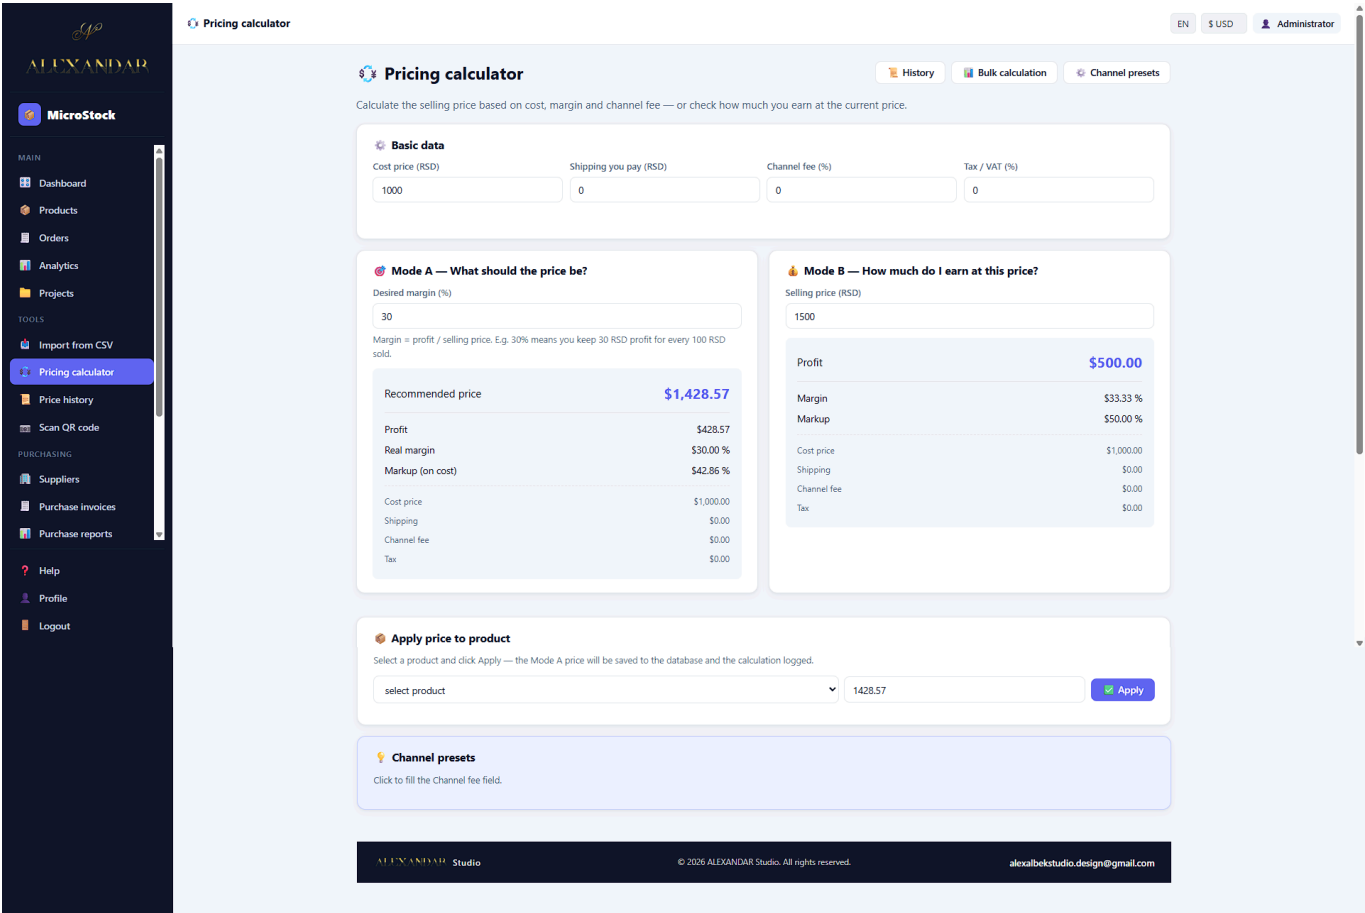

Mode A — What should the price be?

1. Enter **cost price**
2. Enter **shipping** (if you pay it)
3. Enter **channel fee** (e.g. Etsy 6.5%)
4. Enter **desired margin** (e.g. 30%)
5. See **recommended price, profit, real margin**

Mode B — How much do I earn at this price?

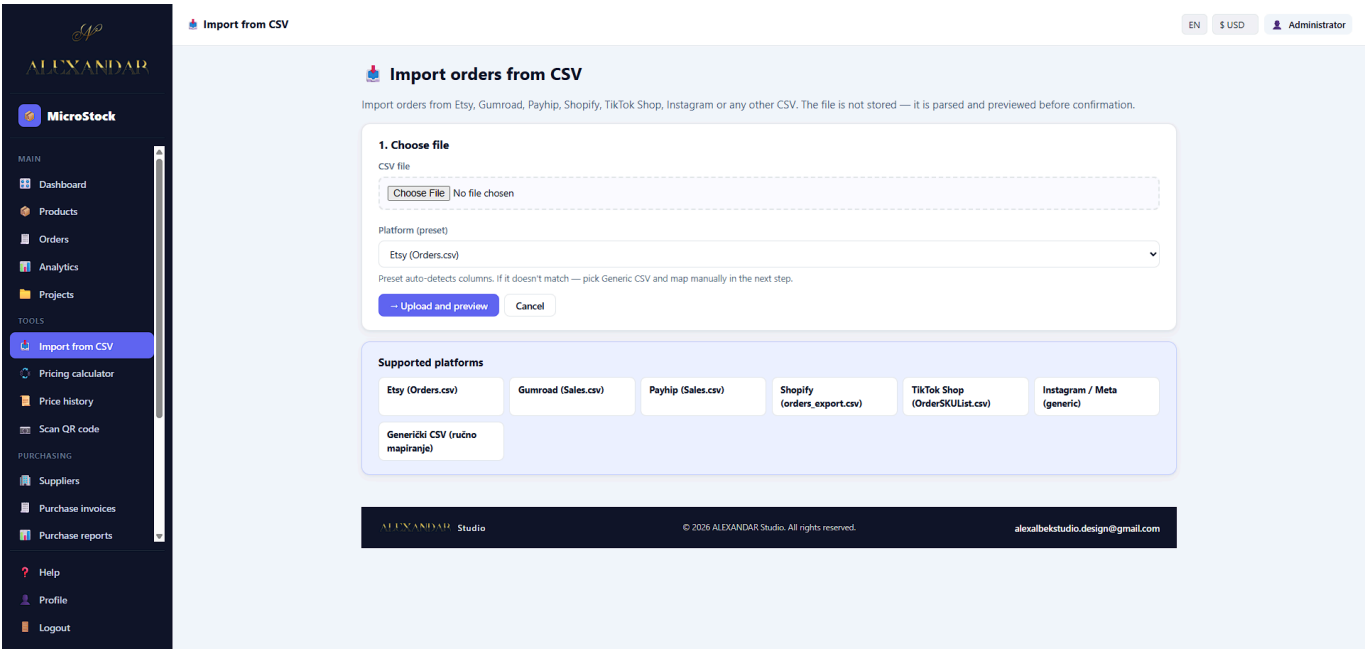

1. Enter **cost price**
2. Enter **selling price**
3. See **profit, margin, markup**

Apply to Product

Select product → click **Apply** → new price is saved to database.

11. CSV Import

CSV Import allows bulk entry of orders.

Supported Platforms

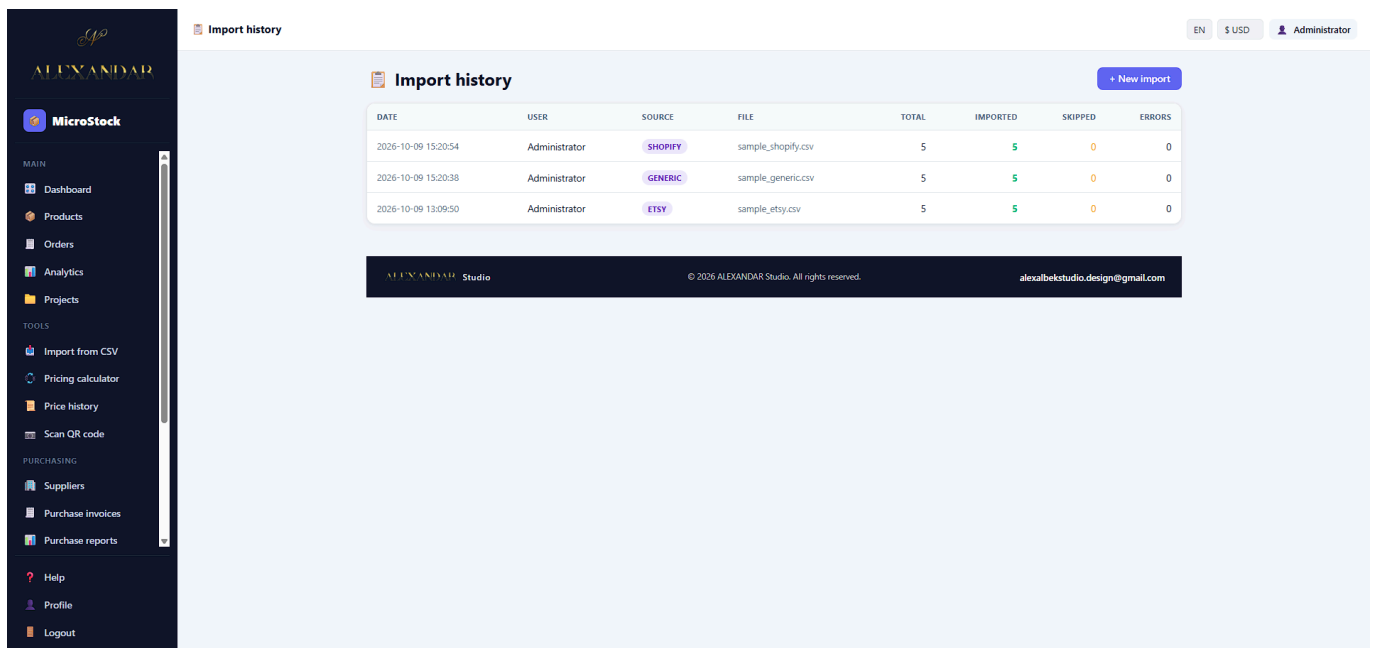

- Etsy (Orders.csv)

- Shopify (orders_export.csv)
- Gumroad
- Payhip
- TikTok Shop
- Instagram / Meta
- **Generic CSV** — manual mapping

Procedure

1. Click  **Import from CSV**
2. Select **file**
3. Select **platform** (preset)
4. Click → **Upload and preview**
5. **Check column mapping** — if something is wrong, change manually
6. Select **channel** (Etsy, Shopify...)
7. Click  **Confirm and import**

Result

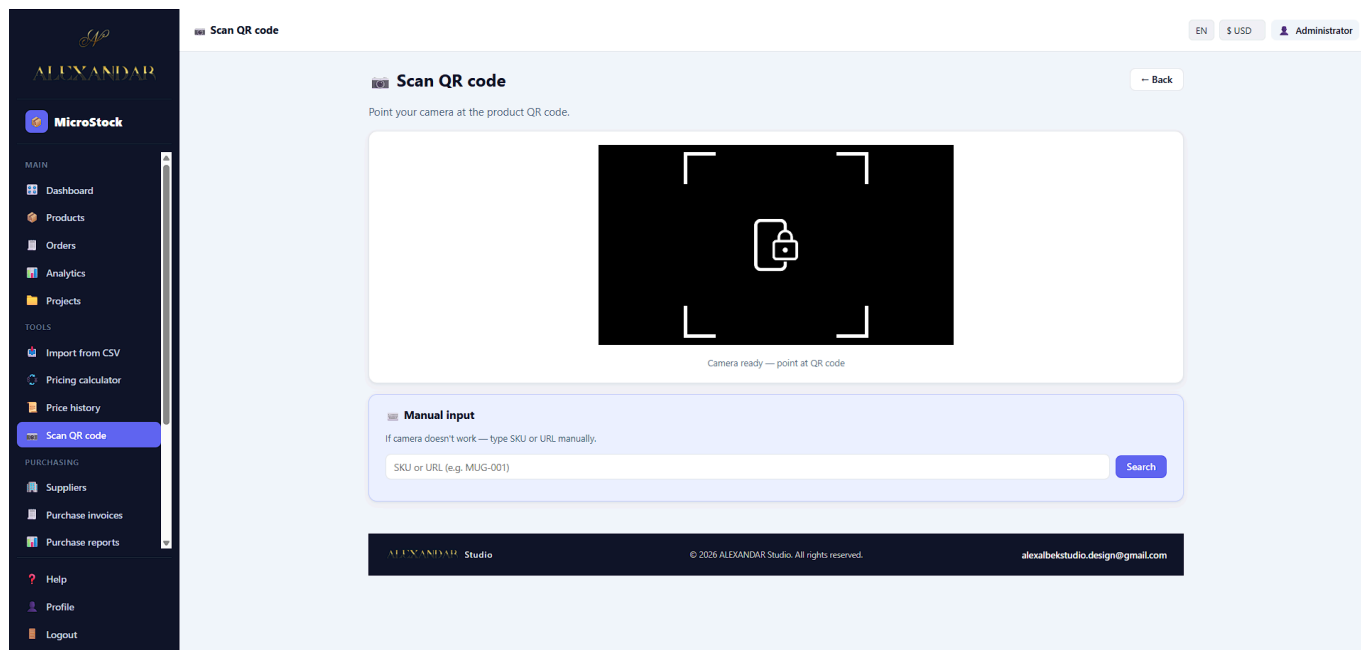

The screenshot shows the 'Import history' page in the MicroStock application. The page has a dark sidebar on the left with navigation links for MAIN (Dashboard, Products, Orders, Analytics, Projects) and TOOLS (Import from CSV, Pricing calculator, Price history, Scan QR code). Below these are PURCHASING links (Suppliers, Purchase invoices, Purchase reports) and a bottom section with Help, Profile, and Logout. The main content area is titled 'Import history' and features a table with columns: DATE, USER, SOURCE, FILE, TOTAL, IMPORTED, SKIPPED, and ERRORS. The table contains three rows of data. A '+ New import' button is in the top right corner of the table area. At the bottom of the page, there is a footer with 'ALEXANDAR Studio', copyright information, and an email address.

DATE	USER	SOURCE	FILE	TOTAL	IMPORTED	SKIPPED	ERRORS
2026-10-09 15:20:54	Administrator	SHOPIFY	sample_shopify.csv	5	5	0	0
2026-10-09 15:20:38	Administrator	GENERIC	sample_generic.csv	5	5	0	0
2026-10-09 13:09:50	Administrator	ETSY	sample_etsy.csv	5	5	0	0

You see:

- **Total rows**
- **Imported** — how many orders
- **Skipped** — duplicates
- **Errors** — if any
- **New products** — auto-created

12. QR Scanner

QR scanner enables quick opening of products by scanning QR code.

Procedure

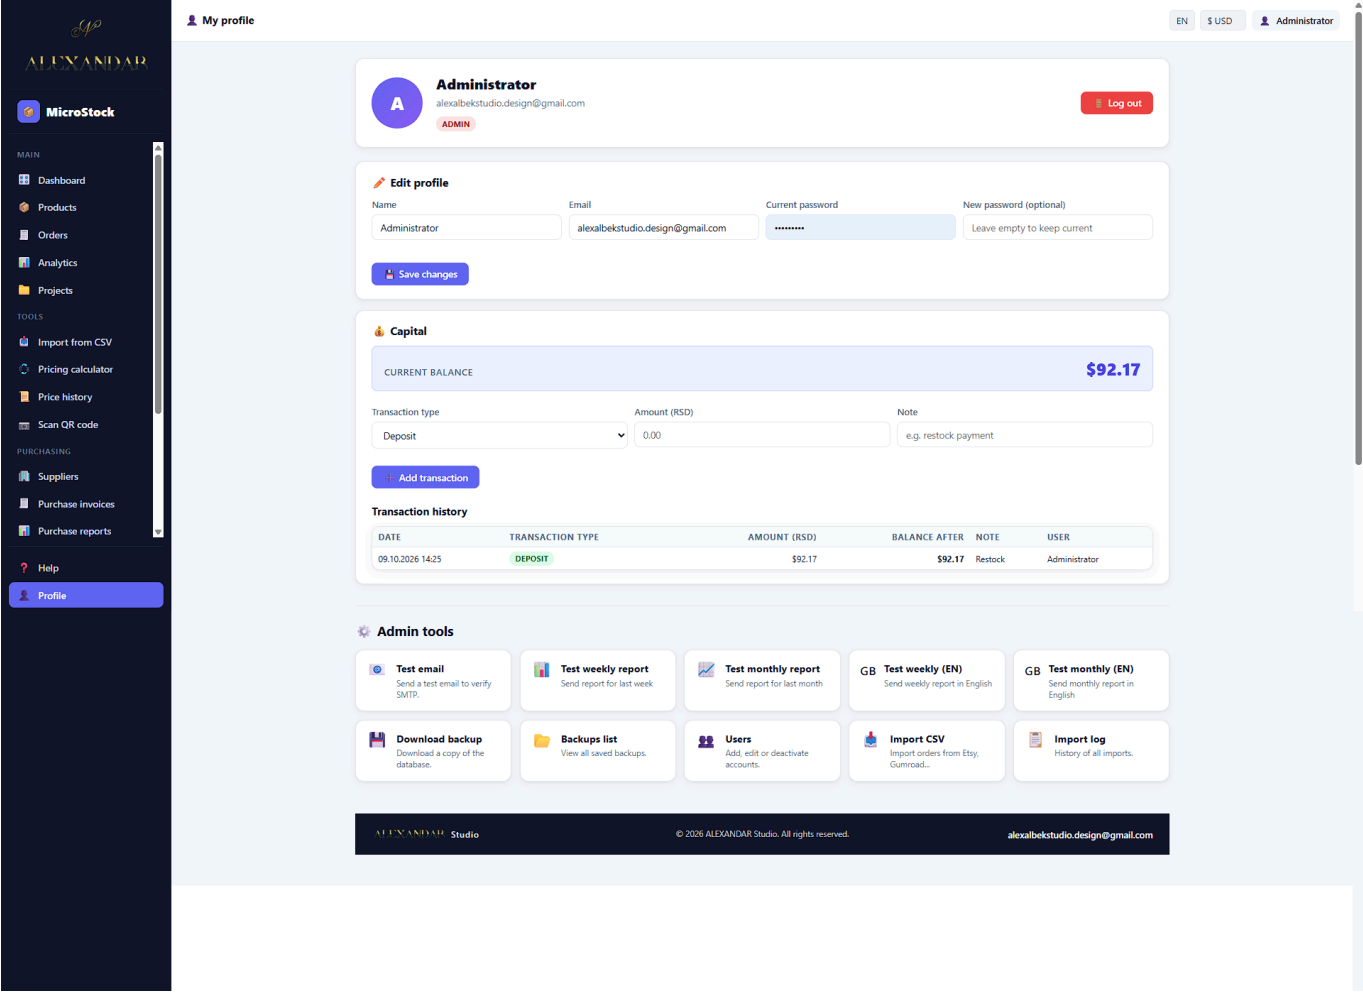

1. Click  **Scan QR code** in the sidebar
2. Allow **camera** in browser
3. Point camera at QR code
4. When scanned — opens **modal** with product (name, price, stock)
5. Click **+ Add to order** → fill form → **Create**

Manual Input

If camera doesn't work, type **SKU** or **URL** in **Manual input** field.

In topbar select **din RSD**, **€ EUR** or **\$ USD**. All prices are automatically converted.

Currency Rates (admin)

Currency rates EN \$ USD Administrator Refresh from NBS

View and manually set exchange rates. Used for display in EUR/USD.

FROM	TO	RATE	RATE DATE	FETCHED
EUR	RSD	117.2000	09.10.2026	09.10.2026 11:41
USD	RSD	108.5000	09.10.2026	09.10.2026 11:41

Manual rate entry

If NBS API is down or you want to fix a rate — enter it here.

EUR → RSD Rate Save

How it works

Rates are used for display conversion (all prices in DB are in RSD).

- Every day at 08:05 scheduler automatically fetches NBS rate.
- If NBS fails — last known rate from DB is used.
- If no rate exists — display falls back to RSD.

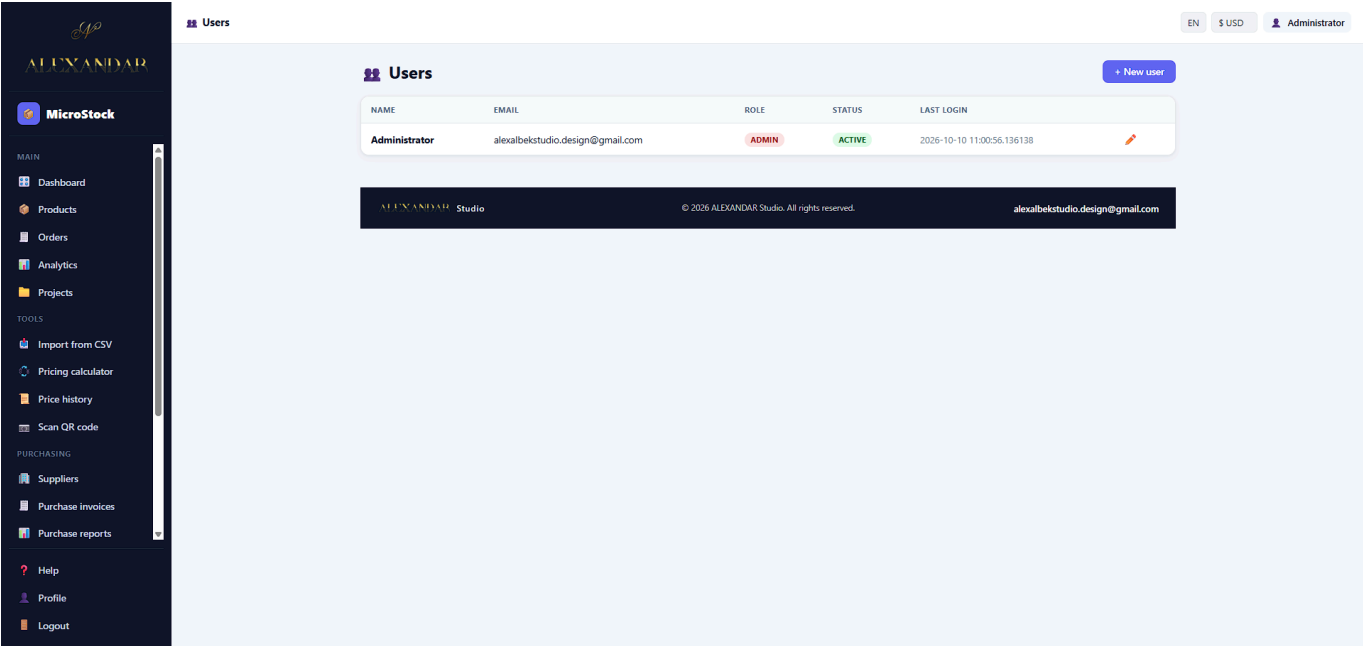

ALEXANDAR Studio © 2026 ALEXANDAR Studio. All rights reserved. alexalbekstudio.design@gmail.com

Admin can:

- View current rates
- Manually enter** rate (if NBS fails)

- **Refresh from NBS** (one click)

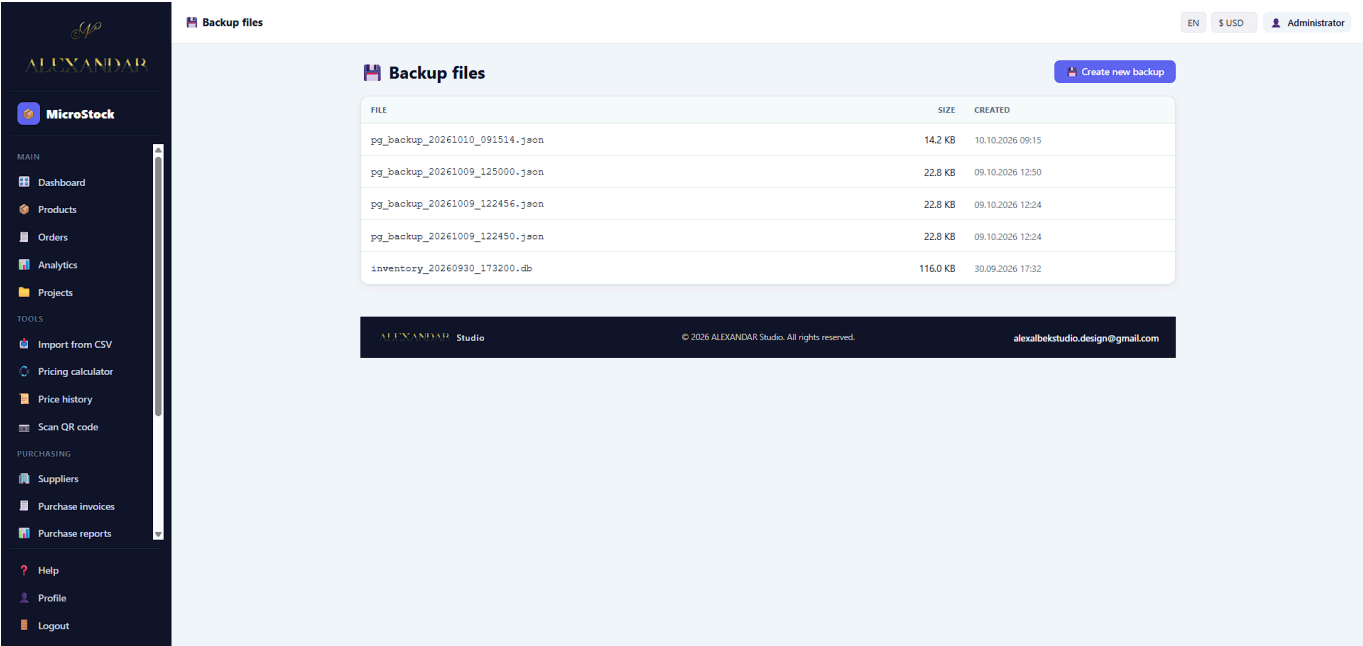

Users (admin)

Admin can:

- Add new users
- Change roles (admin/manager/viewer)
- Activate/deactivate accounts
- Change passwords

Backups (admin)

Click  **Backups** → download JSON backup of database.
